

*Delaware Association for
Environmental Education*

2022-2027

Strategic Plan

Organizational Sustainability

Goal: Build DAEE's capacity to promote environmental and outdoor education to facilitate positive community impact on the conservation, protection, and sustainability of Delaware's natural resources.

Objective 1: Enhance the effectiveness of boards, committees, and staff by developing the capacity, inspiring diverse perspectives, fostering cultural inclusivity, and increasing knowledge of board and committee members within the next 5 years.

Objective 2: Grow and retain a diverse and engaged membership.

Objective 3: Increase and diversify funding strategies to sustain the organization in perpetuity.

VISION

Environmentally literate communities that are engaged in responsible environmental behavior and stewardship.

MISSION

DAEE promotes environmental and outdoor education to facilitate positive impact on the conservation, protection, and sustainability of Delaware's natural resources by connecting communities to nature.

Environmental and Outdoor Education

Goal: Grow and empower future generations with the knowledge and experiences to appreciate, connect, and become well-informed environmental stewards.

Objective 1: Increase the number and accessibility of outdoor learning spaces and associated knowledge.

Objective 2: Increase environmental literacy in Delaware.

Community Connection

Goal: Address community needs by connecting communities to resources regarding environmental awareness, initiatives, and actions through partnerships, information, and experiences.

Objective 1: Connect Delaware communities to nature.

Objective 2: Engage and foster partnerships to increase networking capability.
